

## 2 Voice Poetry Lesson Plan

### Instructions:

Compare and contrast the experience of two individuals. Using a basic Venn Diagram share how the emotions and experiences of these two unique individuals may have obvious differences, but also common human threads.

Your Venn Diagram will help you to complete a piece of 2 Voice Poetry, which is an effective form of writing to show similarities and differences or harmony and discord. It allows for a dynamic blend of monologue by, and dialogue between two unique perspectives/voices. A two-voice poem is written in three columns. You and a partner will read the poem- each choosing to read one of the outside columns. You and your partner will alternate reading your columns independently, and read the middle column in unison.

Be sure to include narrative writing techniques such as dialogue and sensory language to enhance your poetry.

Work through the entire writing process to ensure your best quality of work. Then proceed to record your poetry, with the help of an additional voice, through a recording program.
